B: Reading Comprehension: Read the passage carefully and check the best choices.

Travelling alone seems scary if it's the first time you are going to leave the comfort of home. You will probably think about the potential risks or difficult situations. What happens if I get ill, or have an accident? Isn't it dangerous to go out alone at night? What happens if I get attacked? Isn't it strange to eat at restaurants alone all the time?

Most travelers have these worries and more before their first trip alone, but all these fears disappear when <u>they</u> see all the benefits of this great experience. Here I'm going to give you 3 tips on how to travel alone and have a good time.

Speak the language

۴

Humans are sociable creatures. We all need to talk to other people. If you are travelling alone, it's a good idea to go somewhere you speak the language.

Sleep with the locals

Hotels are comfortable but very lonely, and hostels are perfect for people who travel alone, but you will only speak with other tourists. Try to rent a room in an apartment. This will give you a connection with local residents and they can give you a lot of tips on what you can do.

Don't be shy

Don't be afraid of asking. Ask for directions in the street, or ask about the place, the culture or the customs to the local people that you find in restaurants, parks, etc. You will be surprised how much people like to talk about their town or their culture. Remember you are alone. Asking can be an effective way to start a conversation and meet new people.
