Art and crafts is a creative activity that expresses imaginative or technical skill. It produces an artifact, also called a work of art, for others to experience. Those who do this are called artists. They hope to affect the emotions of people who experience it. Some people find art relaxing, or exciting, or informative. Many people wonder on how to define art. Some say people are driven to make art due to their inner creativity.

Art includes drawing, painting, sculpting, photography, performance art, dance, music, poetry, prose and theatre.

Art is divided into the plastic arts, where something is made, and the performing arts, where something is done by humans in action. The other division is between pure arts, done for themselves, and practical arts, done for a practical purpose, but with artistic content.

Art may express emotion. Artists may feel a certain emotion and wish to express it by creating something that means something to them. Most of the art created in this case is made for the artist rather than an audience. However, if an audience is able to connect with the emotion as well, then the art work may become publicly successful.

34. Art is what people create with imagination and skill. (True / False)

35. An artist is a person who creates works of art. (True / False)

36. Art cannot express emotion. (True / False)
