Recent research has shown that the use of social media can be harmful to mental health. Spending too much time on different sites can make you feel more anxious and depressed. That's because social media often only shows what its users want to see. For example, if you like to go on vacation, you'll see a lot of posts from your friends who have recently traveled. This can make you feel that other people are having more fun than you. One study has found that people who use social media for long periods of time every day are usually more depressed and lonelier. Other studies have also found that people who spend a lot of time on social media often do not get enough sleep because they stay up late. Lack of sleep can cause mental problems such as depression and anxiety. Although social media can be a fun way to connect with friends and family, **it** can also be a source of stress. If you feel anxious or depressed after spending some time on social media, take a break from your accounts. Try spending more time offline with people you care about.

55. The use of social media cannot be harmful at all. T/F **false**
56. Depression and anxiety are two examples of mental health problems. T/F **true**
57. Social media can be a source of stress for those who spend more time online T/f **true**
58. What will happen if people spend a lot of time on social media? **They will not get enough sleep.**
59. In paragraph 3 "**it**" refers to... **social media**

Body language means to communicate without words. When we use our eyes, face and hands to communicate with others we are using body language. When we talk with each other body language can help us talk more easily. Police officers use body language to find out what happened in a crime. Or English teachers can use body language to help students learn English better. For example, if **they** want to tell students that they are doing well they can smile at the students. Body language is also a part of every culture. When people from different countries talk to each other they might use different body language. For example, in some countries it isn't polite to point your finger at someone, but in many Western countries this is OK. If you are traveling to another country learn about its culture and customs before you leave. So, when you talk to someone, it is important to know what they do with their body. This will help you understand the other person better and make communication easier for both of you.

Woodcarving is an art with a history that goes back thousands of years. It is a skill that takes many years to develop, and the results are truly beautiful. Woodcarving can be found in many countries around the world, and each has its own unique style and techniques. Iran is home to many talented woodcarvers. There are many stores in Iran where you can buy beautiful wooden objects such as bowls, picture frames, boxes, and more.

There are many different types of woodcarving. For example, you can find wooden statues, wooden animals, and wooden furniture. Unfortunately, woodcarving is a dying art form. Although it is still practiced in many countries, there are fewer and fewer people who can make a living from this craft. One reason for this is that young people are often more interested in other fields such as engineering and computer science.

Do you eat breakfast every day? Researchers have found that people who eat a balanced breakfast are likely to be healthier than those who don't. One reason is that breakfast is a great way to give the body the energy that it needs. People who eat breakfast are more likely to participate in physical activities. Their bodies need to get energy for a new day after being about 8 to 12 hours without food during sleep. Their mood and energy can drop by midmorning if they don't eat at least a small morning meal.

Breakfast eaters also tend to have fewer weight problems than those who skip the meal. People who don't eat breakfast usually eat too much later in the day. Often, these foods are not healthy and cause overweight and other problems. So, be sure to eat breakfast. It is surely the most important meal of the day. Iranians have an interesting proverb about the importance of eating breakfast. They say "Eat your breakfast alone, eat your lunch with your friend and eat your dinner with your enemy".

If you are not hungry in the morning, or you don't have enough time for eating breakfast, you can pack your breakfast for eating at school. A cheese and walnut sandwich and some fresh fruit is easy to make and keep for a long time.

Body language means to communicate without words. When we use our eyes, face and hands to communicate with others we are using body language. When we talk with each other body language can help us talk more easily. Police officers use body language to find out what happened in a crime. Or English teachers can use body language to help students learn English better. For example, if they want to tell students that they are doing well they can smile at the students. Body language is also a part of every culture. When people from different countries talk to each other they might use different body language. For example, in some countries it isn't polite to point your finger at someone, but in many Western countries this is OK. If you are traveling to another country learn about its culture and customs before you leave. So, when you talk to someone, it is important to know what they do with their body. This will help you understand the other person better and make communication easier for both of you.

Culture is a system of shared beliefs that are common in a society. Often, we think of the food, music, clothing, and holidays that are common in a society as its culture, but these are only some of the elements. Other elements include customs, values, behaviors, and artifacts. Culture is, therefore, a combination of thoughts, feelings, attitudes, and beliefs.

With more than 190 countries and 7 billion people on earth, it is not hard to imagine that many cultures exist. No matter where you go around the world, you will face people, lifestyles and cultures that are different to what you have. People around the world have very different lives and ways of living. They have different beliefs and customs. So, they usually live and behave according to what they believe to be right and wrong.

Learning to respect other cultures is important for having new experiences. One of the first steps to learn about other cultures is to simply accept that there are many different cultures exist other than our own culture. One of the most important ways to learn to become respectful of other cultures is to spend some time reflecting on our own. Then it is important to understand something about other cultures. For those who want to learn about other cultures, but do not know where to start, a great place to start is reading about the cultures that interest them. In today's world if we all are able to know about other cultures, and respect them, life would be easier for most of us.

Making just a few changes in people's lifestyle can help them live longer. Research shows that three bad habits have risked people's health in recent years. They are: smoking, not exercising, and not eating enough fruits and vegetables. While at first it seems easy, many people have found changing these things very difficult.

People's busy lifestyle in big cities has created many problems for their health. Rushing to and from school and work has made it hard for everyone to be physically active. Many people do not have time to cook or prepare healthy food. They eat unhealthy snacks and junk food. This type of diet has changed people's taste and many young people now prefer fast food to homemade dishes. Watching TV and working with technology for long hours have also risked people's health. They have increased the risk of heart diseases and sleep disorders. So the things that seem so simple now can cause serious problems in the future.

They have increased the risk of heart diseases and sleep disorders.

There are many things you can do to have a healthy life. Many people know that eating healthy food and exercising are two of them. Something else people can do is to spend time outside, in nature. Doing these simple things can help you to have a better life now and will help you to live longer and happier in the future.

One of the best things you can do for your body is doing exercise. People exercise to keep healthy. They also exercise to lose weight. Doing exercise can be fun and can make you feel good. But how much is enough? Some people think that doing simple things like cleaning the house are helpful and enough. Other people do heavy exercise every day such as running or swimming. One thing, scientists agree on is that any kind of exercise is good for you.

You should eat foods like fresh fruits and vegetables several times each day. Eating foods with a lot of sugar, salt and fat is harmful for your body. Try not to eat junk food such as candy, potato chips, and soda. They are not good for your health because they contain high amounts of fat or sugar. Being outside has positive effects on human health. Spending time outside can also help decrease the chance of gaining weight. People are inactive inside. But when people are outside, they are active. This activity can help control weight. **It** also decreases stress.

Recent research has shown that the use of social media can be harmful to mental health. Spending too much time on sites like Facebook and Instagram can make you feel more anxious and depressed. That's because social media often only shows what its users want to see. For example, if you like to go on vacation, you'll see a lot of posts from your friends who have recently travelled. This can make you feel that other people are having more fun than you.

One study has found that people who use social media for long periods of time every day are usually more depressed and lonelier. Other studies have also found that people who spend a lot of time on social media often do not get enough sleep because they stay up late. Lack of sleep can cause mental problems such as depression and anxiety.

Although social media can be a fun way to connect with friends and family, it can also be a source of stress. If you feel anxious or depressed after spending some time on social media, take a break from your accounts. Try to spend more time offline with people you care about.
